

## Are you DVS ready?

A) Class V/VI Mirrors B) Audible alert for left turn C) Close proximity sensors D) Side under-run protection E) Blind spot cameras

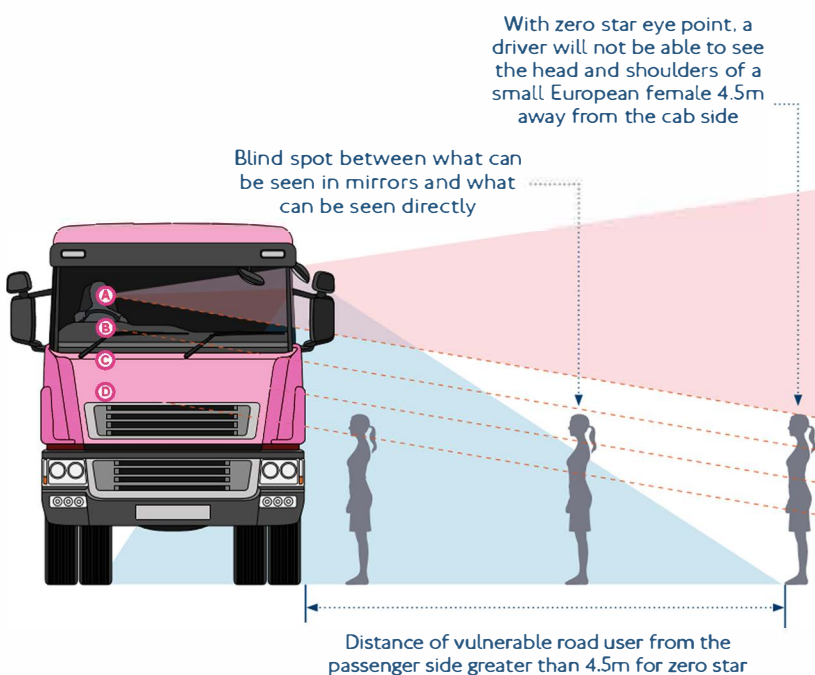

### What is DVS?

The **Direct Vision Standard** is a new safety legislation from Transport for London. From 1st March 2021, HGVs over 12T will need a Safety Permit to enter Greater London.

Visit [tfl.gov.uk](http://tfl.gov.uk) for more info.

### How does it work?

Direct Vision Standard (DVS) measures a driver's vision through the windows of an HGV Cab. A star rating system from zero (limited vision) to five (increased vision) is used to indicate the level of risk to people walking and cycling near the vehicle.

### Star rating system

- 0 ☆ ☆ ☆ ☆ ☆
- 1 ★ ☆ ☆ ☆ ☆
- 2 ★ ★ ☆ ☆ ☆
- 3 ★ ★ ★ ☆ ☆
- 4 ★ ★ ★ ★ ☆
- 5 ★ ★ ★ ★ ★

**0 star-rated** vehicles with an approved Safe System will be granted a permit until 2024.

**1 and 2 star-rated** vehicles will be granted permits until 2024.

**3, 4 and 5 star-rated** vehicles will be granted a 10-year permit.

### When?

**October 2020: Apply for permit.**  
0-star vehicles need a Safe System to apply. 1 - 5 star vehicles can apply.

**March 1st 2021: Law comes into effect.**  
0-star HGVs without Safe System will be banned. HGVs without permit entering Greater London will be fined.

### How can Alltruck plc help?

If your trucks ever go into Greater London, then we would recommend that you get a DVS Safe System installed in your truck to make sure you aren't banned from the city.

We have partnered with a company called **Durite** who provides us with high-quality Safe Systems. We can install this in your truck to prevent you from fines and protect pedestrians and cyclists. **Please get in touch with our team for more information.**
